DEFRA (Ref: MO43) For Weather Forecast Planning Issued on Tuesday, 05 January 2021 at 09:58 local time

#### Air Quality Forecast for the UK

Issued by the Met Office

**Today:** A mostly cloudy day with a northeasterly airflow bringing wintry showers, especially over high ground. Bitterly cold with harsh frosts for many parts away from eastern coasts. Air pollution levels will be Low on Tuesday.

**Tomorrow:** Another cold day on Wednesday with further showers in eastern parts, although these tending to ease. Air pollution levels will remain Low.

**Outlook:** Air pollution levels will be generally Low, with pockets of Medium or High possible in urban parts of northern England and South Wales on Thursday.
