DEFRA (Ref: MO43) For Weather Forecast Planning Issued on Tuesday, 11 May 2021 at 06:48 local time

#### Air Quality Forecast for the UK

Issued by the Met Office

Today: Air pollution levels are expected to be predominantly Low, thanks to clean air originating from the Atlantic. However, there may be higher levels near strong sources, such as industrial sites or near coastal areas.

Tomorrow: Concentrations levels are expected to remain largely Low on Wednesday.

Outlook: Low levels of pollution are expected for most of the UK during this period, though a patch of Moderate may develop over parts of Wales and central England Friday and Saturday.
