

FPUK86 EGRR 020630
Forecast for the UK.
Issued by the Met Office
at 0700 on Monday 2 October 2006

** Valid for Broadcast at 0858 **

Here is the forecast for the United Kingdom until dawn tomorrow :
Rain persisting across much of northwest then northern Scotland.
Elsewhere showers, some prolonged and also heavy, with thunder at
times across southern England. Later showers becoming isolated and
lighter in many places. Temperatures generally slightly above
average.

This evening cloud and outbreaks of rain will extend across the rest
of Scotland, reaching northern Ireland and later north Wales.
Elsewhere many places becoming dry with clear spells.

Outlook for Tuesday and Wednesday:

Tuesday - Largely cloudy with showers or outbreaks of rain across
northern Wales and Northern Ireland. Scattered showers northern
England, isolated showers and sunny intervals elsewhere.

Wednesday - sunny intervals and isolated light showers.
