

FPUK86 EGRR 081745
Forecast for the UK.
Issued by the Met Office
at 1945 on Tuesday 8 February 2005

** Valid for Broadcast at 2159 **

Here is the forecast for the United Kingdom for daytime tomorrow :
Wednesday:-Scotland/Northern Ireland/northern England/Wales will be windy with rain and drizzle at times, while eastern Scotland and parts of NE England and East Wales will have the best of the drier brighter weather. It will be windy in the north with gale force gusts in the northeast. The rest of England is expected to be dry with some bright or sunny spells once patchy drizzly rain in the southeast of England clears. It may become cloudier with coastal drizzle in the SW later. Generally mild.
Mild, increasingly windy.

Outlook for Thursday and Friday:
Unsettled with rain or showers. Windy with gales at times. Temperatures, near normal to mild, feeling less so in the wind and rain.
