c c c c c

6-9 Phil Tr p-28

1845 - The total 136.00 is given by Dr. Miller in the Phil. Trans but I have no doubt it is a computed value the gauge not being erected till June. *gff*

This is corroborated by a note in Mr. S. Marshall's annual return for Kendal "92.62 in in last 7 months or 131.778 in for the year comparing the remaining months with those of Grasmere."
