

FPUK85 EGRR 301000
Forecast for the UK.
Issued by the Met Office
at 1000 on Monday 30 August 2004

** Valid for Broadcasts Between 1200 and 1800 **

Headline:

Sunny intervals and scattered showers, some heavy in the east.

Today:

Sunny intervals, showers becoming widespread this afternoon, some of them heavy in the east, although most western areas will be dry.

Tonight:

Showers dying back to eastern coasts, clear periods developing, a ground frost developing in some northern and western parts.

Outlook for Tuesday:

Isolated showers at first in the extreme east, dying out. Sunny periods, cloud and patchy rain in the northwest later.
