

Forecast For The United Kingdom  
Issued by Met Office Exeter  
at 0700 on Tuesday 15 Apr 2008

++ Valid for broadcast at 0858

Here is the forecast for the United Kingdom until dawn tomorrow:  
Mostly sunny over England and Wales initially, but cloudy, showery conditions, with hill snow, will push southwards from northern England and north Wales. Scattered, sometimes heavy, showers are expected further north. Cloudy with some drizzle over eastern England tonight, with evening showers in the southeast. Otherwise generally dry and clear with light winds and some mist and frost.

Outlook for Wednesday and Thursday:  
Dry and sunny in the north and west on Wednesday with occasional sunny spells and scattered showers elsewhere. Cloudy with outbreaks of rain over northern and southern parts on Thursday, otherwise sunny spells and scattered showers. Becoming breezy and feeling rather cold.
