

Forecast For The United Kingdom  
Issued by Met Office Exeter  
at 1945 on Wednesday 05 Sep 2007

++ Valid for broadcast at 2159

Here is the forecast for the United Kingdom for daytime tomorrow:  
Northwest Scotland will see outbreaks of light rain, with perhaps a little drizzle in Northwest England, North Wales and Northern Ireland. Elsewhere it will be dry with broken cloud and bright or sunny spells developing. Feeling warm in the sheltered south and east.

Outlook for Friday and Saturday:  
There will be some rain for northern parts of Scotland at times on Friday and Saturday. Otherwise it will be mainly dry with bright or sunny periods developing in many areas. Feeling warm in places with light winds, especially towards the south and southeast of the UK.
