DEFRA (Ref: MO43) For Weather Forecast Planning Issued on Tuesday, 16 August 2022 at 05:58 Local time

#### Air Quality Forecast for the UK

Issued by the Met Office

**Today:** Generally Low levels of air pollution are expected across the UK Tuesday, though areas of Moderate possible across parts of eastern England due to light winds and sunny intervals. Confidence remains low due to the spatial distribution of showers.

**Tomorrow:** Generally Low levels of air pollution are expected Wednesday. The model suggests high levels of pollution across the southeast, though this is expected to have a low probability of occurrence.

**Outlook:** Thursday to Saturday will likely see Low levels of air pollution, perhaps with patches of moderate in the south and east of England at times.
