

Forecast For The United Kingdom  
Issued by Met Office Exeter  
at 1945 on Friday 10 Aug 2007

++ Valid for broadcast at 2159

Here is the forecast for the United Kingdom for daytime tomorrow:  
Cloudy over Scotland, Northern Ireland and the north of Wales and England with outbreaks of rain. The rain becoming heavy at times in Northern Ireland and western Scotland. The rest of England and Wales dry with some sunshine, particularly in the southeast where it will feel quite warm.

Outlook for Sunday and Monday:  
Mostly cloudy over Scotland on Sunday with rain or showers. Elsewhere quite breezy with showers and sunny intervals, the showers easing in the afternoon. On Monday, cloudy and wet in northern Scotland. A bright start elsewhere, but scattered showers developing. More general rain reaching the southwest later.
