DEFRA (Ref: MO43) For Weather Forecast Planning Issued on Tuesday, 21 June 2022 at 04:08 Local time

Air Quality Forecast for the UK

Issued by the Met Office

Today: Light winds and warm weather across southern England will allow large areas of Moderate air pollution to develop. Elsewhere pollution levels will be Low, with just isolated pockets of Moderate near busy roads and urban centres.

Tomorrow: Light winds and warm weather across southern England and south Wales will allow widespread Moderate air pollution to form. Elsewhere mainly Low with just isolated pockets of Moderate near busy roads and urban centres.

Outlook: Widespread Moderate air pollution across southern UK on Thursday. As the weather turns more unsettled towards the weekend pollution levels will become predominantly Low.
