

Forecast For The United Kingdom  
Issued by Met Office Exeter  
at 1945 on Tuesday 09 Oct 2012

++ Valid for broadcast at 2159

Here is the forecast for the United Kingdom for daytime tomorrow:  
Dry with a good deal of sunshine in Scotland and northern and eastern England.  
Cloudier elsewhere though, with outbreaks of light rain or drizzle at times in  
southwest England and southwest Wales, and perhaps a few spots in Northern  
Ireland later.

Outlook for Thursday and Friday:  
Eastern areas will be dry at first on Thursday, but rain will spread from the  
west to most parts throughout the day, becoming heavy and persistent, especially  
so in the north. The rain clearing all but the far northeast on Friday, with  
sunny spells and scattered, heavy showers elsewhere.
