

FPUK86 EGRR 281745  
Forecast for the UK.  
Issued by the Met Office  
at 1945 on Friday 28 April 2006

\*\* Valid for Broadcast at 2159 \*\*

Here is the forecast for the United Kingdom for daytime tomorrow :  
Mostly dry with sunny spells and just isolated light showers. Largely  
cloudy across N.Ireland. Mostly light winds and feeling pleasant in  
the sunshine, but breezy and feeling rather cold in the east.

Outlook for Sunday and Monday:  
Largely dry on Sunday with sunny spells, although a scattering of  
showers are likely to develop through the day. Western parts will  
become more cloudy later on, with some rain likely in the west  
overnight. Mostly cloudy at first on Monday with some showers or  
spells of rain. Becoming drier and brighter from the west through the  
day. Feeling chilly in the east with temperatures around normal  
elsewhere.
