

Forecast For The United Kingdom  
Issued by Met Office Exeter  
at 1945 on Friday 05 Feb 2010

++ Valid for broadcast at 2159

Here is the forecast for the United Kingdom for daytime tomorrow:  
Generally cloudy and misty over Scotland with some light rain or drizzle at times over northern and eastern parts, but some bright spells are likely over the Western Isles. Also remaining rather cloudy over Northern Ireland, England and Wales with some early mist or fog, and also some showers in the far south at first.

Outlook for Sunday and Monday:  
Generally dry but cloudy and rather misty across the whole of the United Kingdom on Sunday with some fog likely in central and northern parts at first. Remaining mostly cloudy on Monday and largely dry apart from a little rain in Cornwall. Becoming colder.
