DEFRA (Ref: MO43) For Weather Forecast Planning Issued on Monday, 02 November 2020 at 04:47 local time

Air Quality Forecast for the UK

Issued by the Met Office

Today: The unsettled weather will continue today with strong winds and heavy showers. This will result in Low levels of air pollution across the United Kingdom.

Tomorrow: Another breezy day with scattered showers will ensure that air pollution levels remain Low.

Outlook: The weather across much of the UK will become more settled with lighter winds, especially across England and Wales. Air pollution levels will be predominantly Low, however isolated pockets of Moderate is possible near busy roads and urban centres.
