**Air Quality Forecast for the UK**

Issued by the Met Office

Today: Despite light winds and sunny conditions for many areas, Low levels of air pollution are expected across the UK today.

Tomorrow: Sunday predominantly Low levels of air pollution are expected, although pockets of Moderate air pollution are likely to develop, with southeast England most at risk.

Outlook: Areas of Moderate air pollution are expected to develop across southern England and south Wales at times, but for the majority of the UK Low levels of air pollution are currently forecast to persist.
