

FPUK86 EGRR 310630
Forecast for the UK.
Issued by the Met Office
at 0700 on Monday 31 January 2005

** Valid for Broadcast at 0858 **

Here is the forecast for the United Kingdom until dawn tomorrow :
Generally dry, but rather cloudy today. Sunniest across southern and eastern parts. Patchy light rain, windy over exposed parts and across northern Scotland. Mild in east.
Rain over N.Scotland will spread across E.England and some central parts tonight. Dry, but mostly cloudy elsewhere. Patchy rain over northern and western coasts. Moderate northwesterly winds. Mild.

Outlook for Tuesday and Wednesday:
Early rain should clear from Scotland and E.England on Tuesday morning, lingering in the southeast. Rain will feed eastwards across N.Ireland and Scotland on Wednesday. Otherwise mainly dry, but rather cloudy on both days with the sunniest conditions in shelter from the moderate northwesterly winds.
