

FPUK86 EGRR 021745  
Forecast for the UK.  
Issued by the Met Office  
at 1945 on Saturday 2 October 2004

\*\* Valid for Broadcast at 2159 \*\*

Here is the forecast for the United Kingdom for daytime tomorrow :  
Bright in northeastern areas at first but cloud and persistent, heavy rain will spread from the southwest to most parts during the day. However, the extreme southeast of England will stay mostly dry. Becoming windy with gales in the west and severe gales in places.

Outlook for Monday and Tuesday:

Rain in southern and eastern areas of England on Monday, sunny spells and blustery showers elsewhere. Tuesday, most parts seeing sunshine and squally showers. Feeling chilly in blustery winds.
