

Forecast For The United Kingdom
Issued by Met Office Exeter
at 1945 on Monday 06 Apr 2015

++ Valid for broadcast at 2159

Here is the forecast for the United Kingdom for daytime tomorrow:
Many areas will see another fine day tomorrow with plenty of sunshine,
especially across south Wales and southwestern England. Cloud will tend to
thicken though over the northwest, and will produce some light rain over
northern Scotland throughout the day. In the sunshine and light winds though, it
will feel pleasantly warm.

Outlook for Wednesday and Thursday:

The largely dry and settled weather will continue into Wednesday and Thursday,
with a mix of cloud and sunshine across the UK. The sunniest conditions are
likely on Thursday, allowing it to become very warm for the time of year across
some southern areas of the United Kingdom.
