

FPUK85 EGRR 221000
Forecast for the UK.
Issued by the Met Office
at 1000 on Thursday 22 July 2004

** Valid for Broadcasts Between 1200 and 1800 **

Headline:

Scattered showers in far northwest, showery rain elsewhere, some heavy.

Today:

Southeastern areas may have thundery downpours later today, while western Scotland and Northern Ireland have scattered showers. Meanwhile, other regions can expect showery rain, turning heavy in places.

Tonight:

Early showery rain may include heavy thundery rain in the southeast before showers become mostly confined to the far northwest with patchy fog elsewhere.

Outlook for Friday:

Showers towards the northwest, dry and bright elsewhere.
