

Forecast For The United Kingdom  
Issued by Met Office Exeter  
at 0700 on Wednesday 02 Dec 2009

++ Valid for broadcast at 0858

Here is the forecast for the United Kingdom until dawn tomorrow:  
Dull and misty in places at first, then rather cloudy with showers or longer spells of rain. These will be heaviest and most persistent across southern England and western Scotland, with some brighter spells in the east. Tonight will be cloudy with further showers or longer spells of rain across most parts.

Outlook for Thursday and Friday:  
Cloudy on Thursday with showers or longer spells of rain, which could be heavy at times. Becoming dry on Thursday night with frost in the north. Dry and bright at first on Friday, but rain spreading in from the west.
