

FPUK86 EGRR 021745
Forecast for the UK.
Issued by the Met Office
at 1945 on Monday 2 May 2005

** Valid for Broadcast at 2159 **

Here is the forecast for the United Kingdom for daytime tomorrow :
Scotland and N.Ireland, starting cloudy with rain, but slowly
brightening from the north and west through the day. England and
Wales, rather cloudy at times in the north and west, with showery
rain. Scattered heavy, perhaps thundery, showers developing during
the day, in the east although with some sunny intervals. Temperatures
near normal, but rather warm in southeast.

Outlook for Wednesday and Thursday:

Rain affecting southern and eastern England clearing during
Wednesday, all other areas dry with some sunny spells. England and
Wales mostly dry on Thursday with some good sunny spells developing.
Rather cloudy for Scotland and N.Ireland, with some rain.
Temperatures near normal.
