

Forecast For The United Kingdom  
Issued by Met Office Exeter  
at 0700 on Tuesday 13 Dec 2016

++ Valid for broadcast at 0858

Here is the forecast for the United Kingdom until dawn tomorrow:  
Occasional rain clearing southern England during the morning, then mostly dry and cloudy, with some hill fog, especially in the north and east. Some sunnier breaks in the west for a time. Dry and sunny in the far north of Scotland.

Outlook for Wednesday and Thursday:

Cloudy with patchy rain and drizzle at first on Wednesday. However, it will become brighter in south during the day. A band of rain will become slow-moving across some northern and far western areas. Thursday will be rather cloudy with patchy light rain and drizzle at times. Meanwhile, persistent rain arriving into the far west, with freshening winds.
