

FPUK85 EGRR 031600  
Forecast for the UK.  
Issued by the Met Office  
at 1600 on Tuesday 3 February 2004

\*\* Valid for Broadcasts Between 1800 and 0600 \*\*

Headline:  
Outbreaks of rain, heavy at times in the west.

This Evening and Tonight:  
In England and Wales, rain will become confined to the south, while Scotland and Northern Ireland have showers, mostly in northern Scotland, where severe gales are expected.

Wednesday:  
England and Wales can expect rain, especially the west, while Scotland and Northern Ireland start showery before turning wet with northern Scotland becoming less windy.

Outlook for Thursday:  
Some rain in the south, more showery elsewhere.
