

Forecast For The United Kingdom  
Issued by Met Office Exeter  
at 1945 on Sunday 07 Feb 2010

++ Valid for broadcast at 2159

Here is the forecast for the United Kingdom for daytime tomorrow:  
It will be brighter with scattered wintry showers across northern and central areas. Mainly dry in the west. Light rain or sleet is expected in southeastern and eastern areas with snow possible over hills. It will feel cold in the south and east as strong northeasterly winds develop.

Outlook for Tuesday and Wednesday:  
Continuing mainly dry with bright or sunny spells in the west with a few wintry showers later. Generally cloudier with sleet or snow showers in the east and significant snow accumulations possible on Wednesday. Locally sharp frosts will form in the west. Chilly northeasterly winds.
