

Forecast For The United Kingdom  
Issued by Met Office Exeter  
at 0700 on Monday 09 Jun 2008

++ Valid for broadcast at 0858

Here is the forecast for the United Kingdom until dawn tomorrow:  
Predominantly warm and sunny, though cloudier and breezier towards the northwest. The cloud bringing some light rain to western Scotland and the west of Northern Ireland later. Some mistiness and fog patches around western coasts of England and Wales. Most places dry tonight, although turning gradually cloudier from the northwest. The rain in the northwest largely dying out tonight.

Outlook for Tuesday and Wednesday:

Warm and fine in the south on Tuesday, with the cloud giving way to sunshine. Cooler, cloudier and breezier in the north on Tuesday, with rain for Scotland and Northern Ireland. All parts Cooler and breezy on Wednesday with scattered showers.
