

FPUK85 EGRR 030400  
Forecast for the UK.  
Issued by the Met Office  
at 0400 on Saturday 3 June 2006

\*\* Valid for Broadcasts Between 0600 and 1200 \*\*

Headline:  
Fine and dry for most places. Locally hot today.

Today:  
Northern areas and western coasts of Scotland cloudy, occasional rain across the north. Otherwise dry and mostly sunny, once early patchy fog/low cloud disperses, inland very warm or locally hot, coasts cooler with sea-breezes.

Tonight:  
Patchy light rain across northern Scotland extending across eastern Scotland. Elsewhere dry, clear spells.

Outlook for Sunday:  
Scattered showers developing, mainly eastern England. Western areas staying mostly dry, sunny.
