

FPUK86 EGRR 221745  
Forecast for the UK.  
Issued by the Met Office  
at 1945 on Saturday 22 July 2006

\*\* Valid for Broadcast at 2159 \*\*

Here is the forecast for the United Kingdom for daytime tomorrow :  
Early patches of cloud and perhaps the odd spots of rain or drizzle  
will clear to leave a dry day with sunny periods although isolated  
showers are possible over some central and northern areas in the  
afternoon. For most it will be a cooler and fresher day than of late  
although eastern England will again be quite hot.

Outlook for Monday and Tuesday:

Some rain in the far northwest mainly on Monday otherwise dry with  
sunshine and light winds and becoming hotter again by Tuesday.
