

FPUK85 EGRR 211600  
Forecast for the UK.  
Issued by the Met Office  
at 1600 on Wednesday 21 January 2004

\*\* Valid for Broadcasts Between 1800 and 0600 \*\*

Headline:

Overnight rain reaching most areas, lingering over England and Wales.

This Evening and Tonight:

Patchy light rain and drizzle will give way to more widespread rain moving from the northwest to most areas by morning.

Thursday:

England and Wales can expect a cloudy day with rain at times, especially in southern areas, while much of Northern Ireland and Scotland starts wet before turning drier.

Outlook for Friday:

More rain will move from the west followed by clearer weather.
