

Forecast For The United Kingdom
Issued by Met Office Exeter
at 1945 on Thursday 09 Oct 2008

++ Valid for broadcast at 2159

Here is the forecast for the United Kingdom for daytime tomorrow:
Northern Ireland, Scotland and the far north of England will start cloudy and windy with outbreaks of rain, which will be heavy in the west. However, dry and brighter weather will spread into the north of Scotland during the morning. Further south it will stay dry and bright.

Outlook for Saturday and Sunday:
Scotland and Northern Ireland will have sunny spells but also a few showers on Saturday. Further south it will be cloudy with outbreaks of mainly light rain, although the far south may stay dry. Breezy with rain in the north on Sunday but mainly dry in the south.
