DEFRA (Ref: MO43) For Weather Forecast Planning Issued on Monday, 12 July 2021 at 04:38 local time

Air Quality Forecast for the UK

Issued by the Met Office

Today: Unsettled conditions with outbreaks of rain or showers. Air pollution is expected to be mainly Low, but there is a risk of some local Moderate levels along southern and northern coastal areas.

Tomorrow: Air pollution generally Low, but a risk of Moderate levels for northern and southern coasts.

Outlook: Settled conditions expected to develop from Wednesday. Air pollution forecast to be mainly Low, with some isolated Moderate levels initially on mainly northern coasts, but may become restricted to southern coasts by Friday.
