

Forecast For The United Kingdom
Issued by Met Office Exeter
at 0700 on Tuesday 02 May 2017

++ Valid for broadcast at 0858

Here is the forecast for the United Kingdom until dawn tomorrow:
Dry and warm for many western areas with sunny spells. Some showers affecting southeast and central parts, possibly merging into longer spells of rain later. Cloudier in the northeast, chilly along North Sea coasts in the breeze. Mainly dry overnight with a localised frost in the north and west. Cloudy in the southeast.

Outlook for Wednesday and Thursday:
Dry with sunny spells and feeling warm in the north on Wednesday. Cloudier in the south with some showery rain in the southeast, where feeling cool. Breezy in central and south-eastern parts. Mainly dry and breezy with sunny spells on Thursday with showers for the far south.
