

FPUK86 EGRR 121745  
Forecast for the UK.  
Issued by the Met Office  
at 1945 on Thursday 12 January 2006

\*\* Valid for Broadcast at 2159 \*\*

Here is the forecast for the United Kingdom for daytime tomorrow :  
Rain, some heavy, across northwestern Britain will move slowly east,  
lying across southeast Scotland, northern and western England and  
Wales by evening. Clearer weather with heavy showers following into  
Northwestern areas later. Central and eastern England cloudy but dry.  
Windy, gales in northern and western areas. Temperatures mostly mild,  
southeast England rather cold.

Outlook for Saturday and Sunday:

Rain over eastern England slowly dying out during Saturday afternoon.  
A few showers over northwest Scotland, otherwise remaining areas dry  
with sunny spells. Cloud, rain and strong winds spreading into  
northern and western areas on Sunday. Dry but cloudy over eastern  
England. Temperatures near average to mild.
