

FPUK85 EGRR 031000  
Forecast for the UK.  
Issued by the Met Office  
at 1000 on Wednesday 3 November 2004

\*\* Valid for Broadcasts Between 1200 and 1800 \*\*

Headline:

Showers in west, mainly dry elsewhere. Rain moving east tonight.

Today:

Showery rain over some western areas. Mainly dry with variable cloud and some bright spells in the east. More widespread rain reaching Northern Ireland, Western Scotland and southwest England later.

Tonight:

Cloud and rain spreading east, clearer skies following into northwestern areas later though showers over far northwestern coasts.

Outlook for Thursday:

Rain in southeast clearing by lunchtime, sunny spells elsewhere. Showers in northwest.
