

FPUK86 EGRR 300630
Forecast for the UK.
Issued by the Met Office
at 0700 on Thursday 30 October 2003

** Valid for Broadcast at 0858 **

Here is the forecast for the United Kingdom until dawn tomorrow :
Rain, heavy at times, in the far SW will spread gradually northeast, reaching the rest of Wales, and many central and southern areas this afternoon as well as the Irish Borders. Further north; after the slow clearance of fog in Scotland/N England, a day of bright or sunny intervals is expected, with showers, mainly near coasts.
Tonight, rain will continue across Wales and many central areas with heavy, possibly thundery showers towards south coast. Rain or showers developing over N Isles and E Scotland. Rather windy generally.

Outlook for Friday and Saturday:
Windy with rain or showers initially, but dry/ fine for a time on Saturday.
