DEFRA (Ref: MO43) For Weather Forecast Planning Issued on Saturday, 16 July 2022 at 05:20 Local time

Air Quality Forecast for the UK

Issued by the Met Office

Today: Air pollution will be Low for the majority of the UK, although locally Moderate air pollution levels will occur across southeast England.

Tomorrow: As temperatures increase across much of the UK during Sunday so will levels of air pollution across the southern UK, with Moderate levels of air pollution becoming widespread.

Outlook: Monday and Tuesday Moderate air pollution is expected to become widespread across much of the UK, although Northern Ireland is likely to retain Low levels of air pollution. Wednesday cooler and fresh air is likely to arrive from the Atlantic, leaving residual pockets of Moderate air pollution across the UK.
