

FPUK86 EGRR 011745
Forecast for the UK.
Issued by the Met Office
at 1945 on Saturday 1 July 2006

** Valid for Broadcast at 2159 **

Here is the forecast for the United Kingdom for daytime tomorrow :
Central, southern and eastern parts seeing long spells of hazy
sunshine. Western areas of England and Wales, more cloudy although
still some sunshine. Increasing risk of heavy showers or
thunderstorms. Scotland and Northern Ireland cloudy at first, some
showery rain, but also some sunshine. Some heavy showers later.
Temperatures very warm to very hot. Cooler fresher near coasts,
especially in east and in northwest.

Outlook for Monday and Tuesday:

A lot of dry weather with hazy sunshine. Cloudier in the north with
some rain. Thundery showers affecting southern and especially
southwestern parts at times. Hot or very hot in the south. Warm in
the north.
