Here is the forecast for the United Kingdom for daytime tomorrow:
Showery rain over some northern and western parts of England and Wales will move southeast into southeast England later, perhaps with some heavy bursts. Mostly dry conditions elsewhere with sunshine at times but also some showers, especially over Scotland and Northern Ireland. Temperatures near the seasonal average, feeling warm in any sunshine.

Outlook for Friday and Saturday:
Scotland, Northern Ireland and some western parts of England will be mostly cloudy with rain at times, heaviest in the northwest. Central and southern parts of England should be mostly dry with some sunshine. Temperatures should be near average in the north but becoming warm in the south.
