

FPUK86 EGRR 020630  
Forecast for the UK.  
Issued by the Met Office  
at 0700 on Saturday 2 July 2005

\*\* Valid for Broadcast at 0858 \*\*

Here is the forecast for the United Kingdom until dawn tomorrow :  
Today: Most places dry with some warm sunny spells developing after a cloudy damp start. However western coasts and hills will remain cloudy and misty. West and northwest Scotland will be cloudy and windy with some rain.  
Tonight: Rain over Northern Ireland moving east across Scotland, Wales, northern and western parts of England becoming light and patchy by the morning. SE England remaining dry with variable cloud. Windy in the NW with gales over the Western Isles.

Outlook for Sunday and Monday:  
Sunny spells and occasional showers. The showers mostly over the southeast and northwest on Sunday becoming widespread and heavy in places on Monday.
