

FPUK86 EGRR 021745
Forecast for the UK.
Issued by the Met Office
at 1945 on Tuesday 2 May 2006

** Valid for Broadcast at 2159 **

Here is the forecast for the United Kingdom for daytime tomorrow :
Mostly dry and warm with hazy sunshine for most. Generally cloudier
in the west, with showers spreading to Northern Ireland and Western
Scotland. Scattered showers also developing across Southern and
Central England. Most showers will clear during the evening.

Outlook for Thursday and Friday:

Thursday. Warm or very warm with sunny spells for most parts. But
cloudier in the north and west with scattered, locally heavy showers
over Northern Ireland and Western Scotland.

Friday. A band of occasionally heavy and thundery rain will spread
across all parts. Still warm with hazy sunshine in the east for much
of the day. Becoming fresher in the west.
