

Forecast For The United Kingdom
Issued by Met Office Exeter
at 0700 on Tuesday 08 Dec 2009

++ Valid for broadcast at 0858

Here is the forecast for the United Kingdom until dawn tomorrow:
Bright start with some showers. Increasing cloud will bring occasionally heavy rain to Northern Ireland, Wales and southwest England by midday, and to Scotland and much of England by evening. Becoming windy. Rain clearing most parts overnight except the far southeast of England by dawn. Remaining rather cloudy in places, but becoming misty. Some showers will spread to western areas.

Outlook for Wednesday and Thursday:
Some bright spells on Wednesday. Rain will quickly clear the far southeast. Scattered showers will affect mainly western parts of England, Wales, and Scotland and Northern Ireland. Most places will become dry with broken cloud and some brightness on Thursday.
