

Forecast For The United Kingdom  
Issued by Met Office Exeter  
at 1945 on Tuesday 11 Mar 2008

++ Valid for broadcast at 2159

Here is the forecast for the United Kingdom for daytime tomorrow:  
Windy with westerly gales generally. Extremely windy with severe westerly gales in the morning over north Wales and northern England with gusts up to 75 mph, and perhaps 80 mph in exposed spots. Rain and hill snow will affect Scotland clearing later, and northern England, clearing in the morning. Otherwise sunny spells and scattered, blustery showers, heavy in the north.

Outlook for Thursday and Friday:

Showers in the north on Thursday. A dry but increasingly cloudy morning in the south, with rain gradually spreading in during the afternoon. Cloudy with rain in the south on Friday, with sunny spells and scattered showers in the north.
