

FPUK85 EGRR 040400
Forecast for the UK.
Issued by the Met Office
at 0400 on Saturday 4 December 2004

** Valid for Broadcasts Between 0600 and 1200 **

Headline:

Rain spreading southeast, hazy sunshine developing across the south today.

Today:

England and Wales, dry, bright, hazy sunshine developing. Rain will spread to Scotland and Northern Ireland, becoming heavier later.

Tonight:

Clear with a few fog patches in the south. Rain clears Scotland and Northern Ireland, but patchy rain crossing northern England and north Wales.

Outlook for Sunday:

A sunny start for many northern areas, before rain spreads to northwest later. Cloudy in the south.
