## Further details

Rain will be persistent and at times heavy across more southern parts of Wales, in South-west England and the West Country, where 30-60 mm could fall in a few places, dying out overnight.

Further east, a few slow moving heavy showers and thunderstorms may develop, possibly producing 20-25 mm of rain within an hour. Lightning could be an additional hazard. These dying out during the evening.

## Reason for update

Rain more persistent and heavy across western parts of the warning area, also extended into Ceredigion, and until midnight, whilst heavy showers and thunderstorms further east mostly isolated.

✓ Very low likelihood of medium impacts
