**Air Quality Forecast for the UK**

Issued by the Met Office

Today: Air pollution levels are expected to remain Low across the UK on Wednesday. Although not widespread, showers in the west should also help keep airborne particles reduced

Tomorrow: Another day of Low levels of air pollution across the UK on Thursday. Showers will likely be distributed in eastern and central parts.

Outlook: Air pollution is set to remain largely Low for much of the UK from Friday to Sunday, though there remains the risk of Moderate levels of coastal ozone across isolated stretches of coastline in the north and west each day.
