Here is the forecast for the United Kingdom for daytime tomorrow:
There will be some heavy showers in eastern parts of England, especially around the coasts, and there could even be the odd rumble of thunder. However, most of the UK will have a fine and dry day with some sunny spells and the odd light shower, but it will be feeling rather chilly.

Outlook for Tuesday and Wednesday:
Through Tuesday and Wednesday, it will be fairly similar with many areas seeing sunny spells and patchy cloud. There will still be some showers in eastern parts but these will be lighter and could affect central areas of the UK too.
