

Forecast For The United Kingdom
Issued by Met Office Exeter
at 1945 on Monday 08 Jun 2009

++ Valid for broadcast at 2159

Here is the forecast for the United Kingdom for daytime tomorrow:
it will be a generally cloudy day across southern, central and southeastern Britain with occasional rain and some brighter spells. Drier and brighter or sunny across northern and western England, Wales, Scotland and Northern Ireland with scattered light showers. Feeling on the cool side with northerly breeze developing.

Outlook for Wednesday and Thursday:
Rain in the south on Wednesday will be occasionally heavy, but brighter in the north with a scattering of showers. Feeling on the cool side in the east or northeasterly winds. Showery with sunny spells on Thursday, although with winds falling light.
