

Forecast For The United Kingdom  
Issued by Met Office Exeter  
at 1945 on Friday 02 May 2008

++ Valid for broadcast at 2159

Here is the forecast for the United Kingdom for daytime tomorrow:  
It will be cloudy in the west and north of the UK on Saturday, with outbreaks of mostly light rain. The rain spreading slowly eastwards to reach all but the southeast of the UK by the end of the day. Feeling quite warm under brighter skies.

Outlook for Sunday and Monday:  
An overcast day with rain on Sunday, the rain heavy at times, especially through central parts. Northern Ireland and far west of Wales becoming dry and brighter. Still rather cloudy with outbreaks of rain in the East on Monday. Elsewhere dry and becoming brighter. Temperatures on the warm side in the brighter weather.
