

Forecast For The United Kingdom
Issued by Met Office Exeter
at 0700 on Monday 09 Nov 2015

++ Valid for broadcast at 0858

Here is the forecast for the United Kingdom until dawn tomorrow:
It will be cloudy and windy today across the country with further spells of rain in the west and north. Feeling mild though, with temperatures above the seasonal norm. It will stay cloudy overnight with rain staying persistent on western and northern hills. An exceptionally mild night away from northern Scotland with minimum temperatures in the mid to high teens.

Outlook for Tuesday and Wednesday:
Tuesday will be another windy, mild and cloudy day with outbreaks of rain on western hills. Wednesday too will see further spells of rain for some, particularly in the west. Temperatures on both days will feel above the seasonal norm.
