

Forecast For The United Kingdom
Issued by Met Office Exeter
at 0700 on Monday 04 Dec 2017

++ Valid for broadcast at 0858

Here is the forecast for the United Kingdom until dawn tomorrow:
A mixture of cloudy skies and some sunny spells. Dry for most but a few showers are likely across the west and the far north, where it will be breezy. Most dry and cloudy tonight. Patchy fog and frost is likely in the south of England. Becoming windy for the north with rain in the far north.

Outlook for Tuesday and Wednesday:
Becoming windy in the north on Tuesday with rain across north west Scotland, mainly dry but cloudy elsewhere aside from a few light showers in the west. Widespread gales on Wednesday with heavy rain travelling eastwards later in the day.
